SUMMARY

Recent Master of Urban Design graduate passionate about people-centred, climate-resilient public spaces. Experienced in design studios covering transit-oriented development, public realm regeneration, and participatory planning. Strong visual communication and spatial analysis skills.

EDUCATION

Master of Urban Design, National University of Singapore (2024 - 2025)

- Thesis: Retrofitting heartland town centres for walkability and heat resilience.

B.A. (Hons) Architecture, National University of Singapore (2020 - 2024)

SKILLS

- Design: masterplanning, urban morphology, streetscape and public realm design, wayfinding
- Software: AutoCAD, SketchUp, Rhino, Adobe Illustrator, Photoshop, InDesign
- Analysis: ArcGIS, QGIS, space syntax, site analysis, pedestrian flow mapping
- Communication: 3D visualization, diagramming, report writing, stakeholder workshops

PROJECTS

Kampong Glam Public Realm Studio (2025)

- Produced a pedestrianization masterplan; ran two community engagement sessions and synthesized feedback into design moves.

Transit-Oriented Development Studio, Jurong Lake District (2024)

- Modelled density scenarios in Rhino/GIS; assessed shade coverage and walkshed catchments.

EXPERIENCE

Urban Planning Intern, Surbana Jurong (May 2023 - Aug 2023)

- Supported masterplan drawings in AutoCAD and site analysis in QGIS for a regional mixed-use development bid.
- Prepared visual boards and 3D views for client workshops.

AWARDS

- NUS Urban Design Studio Prize (2025), shortlisted
